

Shuttle®

ULTRASONIC LEVEL TRANSMITTER

2.1

General

Shuttle® is an ultrasonic level meter with an intelligent and very precise measuring system. It provides simple and logical operation using advanced technology. This results in a high quality product at a competitive price.

Shuttle® is designed to measure water levels as well as other fluids and contaminated or/and aggressive media, where the ultrasonic sensor is not in contact with the media.

Features

- Multiple sensors with measuring ranges from 10 cm to 25 m.
- Learns how the tank is arranged with piping, pumps and other items interfering with the measurement.
- Ignores turbulence and electrical interference (even a slow moving mixer can pass through without influencing the measurement).
- Two output relays for level/system alarm or alternating pump control with duty and standby cycles.
- 4-20 mA output with zero and span adjustment.
- Indicates strength of echo signal with a bar graph.
- Narrow ultrasonic pulse signal concentrates signal strength for minimum sensitivity to foam/sludge on the liquid surface.
- Easy to read LCD-display for both setup and indication.
- Actual level indicated with bar graph and digits in millimeters, centimeters, meters, feet and inches.
- Readout can be chosen as relative or absolute level.
- 10-30 V DC or 230 V AC supply.
- FM approved sensors for hazardous areas.

Applications

- Stormflow tanks
- Pump stations
- Tanks in sewage treatment plants
- Tanks in water plants
- Tanks and vessels in process and food industries.

Shuttle® Ultrasonic Level Transmitter

Ultrasonic Sensors

Standard range version

Shuttle® Ultrasonic Sensor 200570/200571

Range:	15 m (fluids) 6 m (solids)
Frequency:	30 kHz
Spread:	3°
Deadband:	35 cm
Temperature:	- 20° to + 60° C
Materials:	PP, POM. Mounting: ISO
Cable:	Shielded, oil resistant PVC insulation, length 12 m/50 m
Enclosure:	IP 68, watertight, withstands max. 1 bar submersion
CE-approvals:	EN 50081-1, EN 50082-1

Standard range version

Shuttle® Ultrasonic Sensor: 200642

Range:	12 m (fluids), 5 m (solids)
Frequency:	40 kHz
Spread:	7°
Deadband:	35 cm
Temperature:	- 20° to + 60° C
Materials:	PTB+PC, glass reinforced epoxy. Mounting: NPT
Cable:	Shielded, oil resistant PVC insulation, length 12 m. (Max. 100 m. extension with 690010 cable.)
Enclosure:	IP 68, watertight, withstands max. 1 bar submersion
CE-approvals:	EN 50081-1, EN 50082-1

Extended range version

Shuttle® Ultrasonic Sensor: 200632

Range:	25 m (fluids), 10 m (solids)
Frequency:	30 kHz
Spread:	6°
Deadband:	80 cm
Temperature:	- 20° to + 60° C
Materials:	PTB+PC, glass reinforced epoxy. Mounting: NPT
Cable:	Shielded, oil resistant PVC insulation, length 12 m. (Max. 100 m. extension with 690010 cable.)
Enclosure:	IP 68, watertight, withstands max. 1 bar submersion
CE-approvals:	EN 50081-1, EN 50082-1

Chemically resistant version

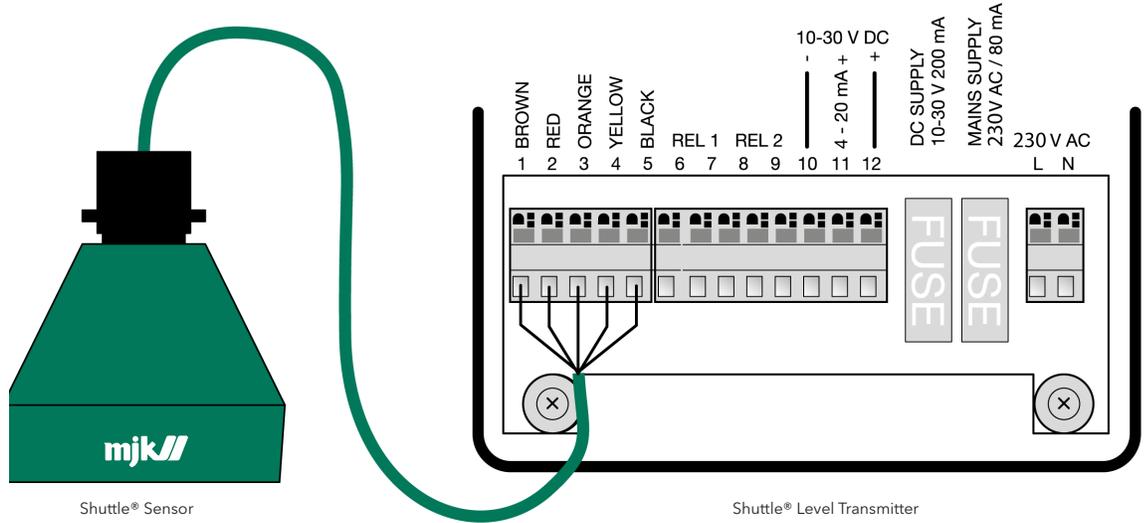

Shuttle® Ultrasonic Sensor: 200660

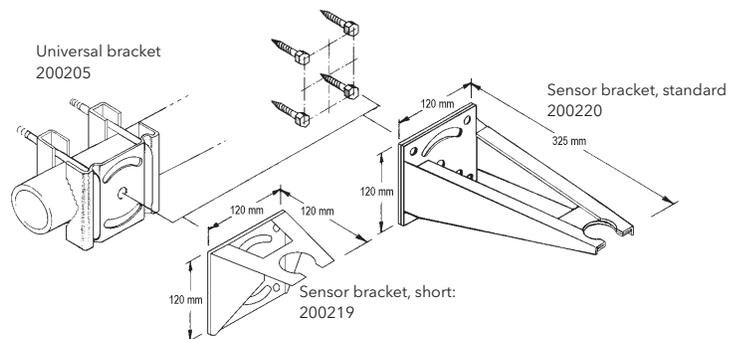

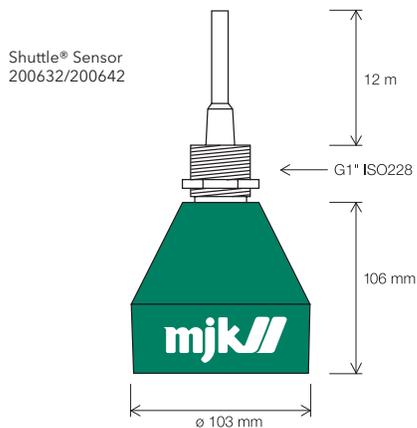

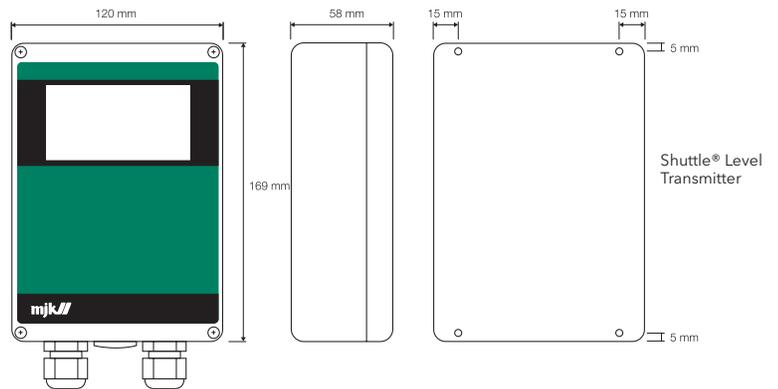

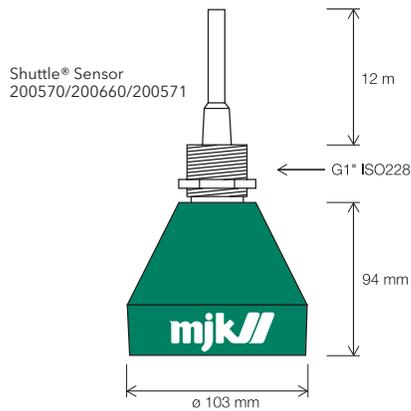

Range:	10 m (fluids), 5 m (solids)
Frequency:	50 kHz
Spread:	6°
Deadband:	35 cm.
Temperature:	- 20° to + 60° C
Materials:	PP, PVDF. Mounting: ISO
Cable:	Shielded, oil resistant PVC insulation, length 12 m. (Max. 100 m. extension with 690010 cable.)
Enclosure:	IP 68, watertight, withstands max. 1 bar submersion
CE-approvals:	EN 50081-1, EN 50082-1

Shuttle® Level Transmitter

Order Numbers

Shuttle® Ultrasonic Level Transmitters	
201209	Shuttle® level transmitter 115VAC w/o sensor
201210	Shuttle® level transmitter 230VAC w/o sensor
201211	Shuttle® level transmitter 230VAC w/o sensor, Spanish label
201213	Shuttle® level transmitter 115VAC w/ sensor 200570 0-15/0-6m, Spanish label
201214	Shuttle® level transmitter 115VAC w/ sensor 200570, 0-45/15ft
201215	Shuttle® level transmitter 230VAC w/ sensor 200570, 0-15/0-6m
201216	Shuttle® level transmitter 230VAC w/ sensor 200570, 0-15/0-6m Spanish label
201225	Shuttle® level transmitter 230VAC w/ sensor 200632, 0-25/0-10m
201235	Shuttle® level transmitter 230VAC w/ sensor 200642, 0-12/0-5m
201240	Shuttle® level transmitter 230VAC w/ sensor 200660, 0-10/0-5m
201244	Shuttle® level transmitter 115VAC w/ sensor 200660, 0-30/15ft

Accessories

Shuttle® Ultrasonic Sensors	
200570	Shuttle® sensor 30 KHz, 0-15/0-6m, 12m cable. ISO
200571	Shuttle® sensor 30 KHz, 0-15/0-6m, 50m cable. 1" ISO
200532	Shuttle® sensor 30 KHz, 0-25/0-10m 12m cable, 1" NPT
200542	Shuttle® sensor 40 KHz, 0-12/0-5m 12m cable, 1" NPT
200560	Shuttle® sensor 50 KHz, 0-10/0-5m 12m cable. 1" ISO

Accessories	
109113	MJK product test certificate. Must be requested upon order
200035	Shuttle panel mounting frames
200115	Field mounting kit with rain-roof/sun shield
200205	Universal bracket
200219	Sensor bracket, short, 120 mm
200220	Sensor bracket, standard, 325 mm
200240	Mounting plate for Shuttle® for pole mounting
200590	MJK Connection box IP67/NEMA4X for Shuttle/SuSix/Oxix sensors
200595	Cable length, not standard Ultrasonic cable
201290	Shuttle® Profibus unit
690010	Ultrasonic sensor cable per m
